5. Comprehend about the normative principles of cataloguing.
6. Know the standards for bibliographic interchange and communication.
7. Know the current trends in library cataloguing.

**Course Code: B.LIB-04**

**Title: INFORMATION AND COMMUNICATION TECHNOLOGY: BASICS**

**Learning Outcomes:**

After studying this course, students shall be able to:

1. Understand the structure of computer and its functioning.
2. Acquire the knowledge of computer networks and their protocols and standards.
3. Examine the concept of library networks and highlight their types and importance.
4. Understand the various criteria for the classification of computer networks.
5. Understand the concept, components and services of the Internet.

## **SEMESTER-II**

**Course Code: B.LIB-05**

**Title: MANAGEMENT OF LIBRARY AND INFORMATION CENTRES**

**Learning Outcomes:**

After studying this course, students shall be able to:

1. Understand the concept, principles and functions of management.
2. Carry out various operations of Library and Information Centres.
3. Understand the Human Resource Management in Library and Information Centres.
4. Understand the financial management of Library and Information Centres.
5. Maintain the library statistics and prepare annual report.
6. Understand the motivational theories and the concept of TQM.

**Course Code: B.LIB-06**

**Title: KNOWLEDGE ORGANISATION: CLASSIFICATION (PRACTICE)**

**Learning Outcomes:**

After studying this course, students shall be able to:

1. Use the classification schemes.
2. Determine the subject of the document.
3. Build class numbers for documents with simple, compound and complex subjects with DDC, UDC and Colon Classification.
4. Synthesize class numbers by using the standard subdivisions/common isolates/common and special auxiliaries.

**Course Code: B.LIB-07**

**Title: KNOWLEDGE ORGANISATION: CATALOGUING (PRACTICE)**

**Learning Outcomes:**

After studying this course, students shall be able to:

1. Use the catalogue codes –CCC and AACR-2.
2. Prepare catalogue entries for different types of documents.
3. Derive subject headings using Chain Procedures and Sears List of Subject Headings.

**Course Code: B.LIB-08**

**Title: INFORMATION SOURCES AND SERVICES (THEORY)**

**Learning Outcomes:**

After studying this course, students shall be able to:

1. Understand, identify and explore different types and formats of information sources.
2. Acquire the understanding of reference services.
3. Know various methods of user education.
